

A new BioWorld is coming soon!

Key highlights

October 2019

A new BioWorld is coming soon

Stay ahead with daily insights on the latest biopharma news

More coverage

News, archive and insights now consolidated in one BioWorld package.

Faster delivery

Same-day news editions plus daily analysis rather than weekly.

Visualizations

Dynamic, interactive infographics covering industry insights.

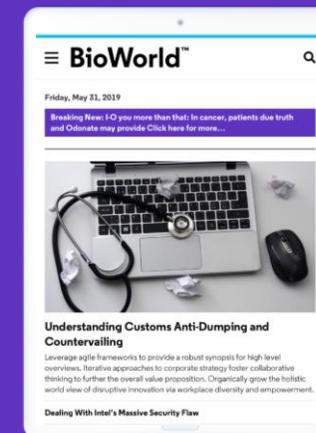

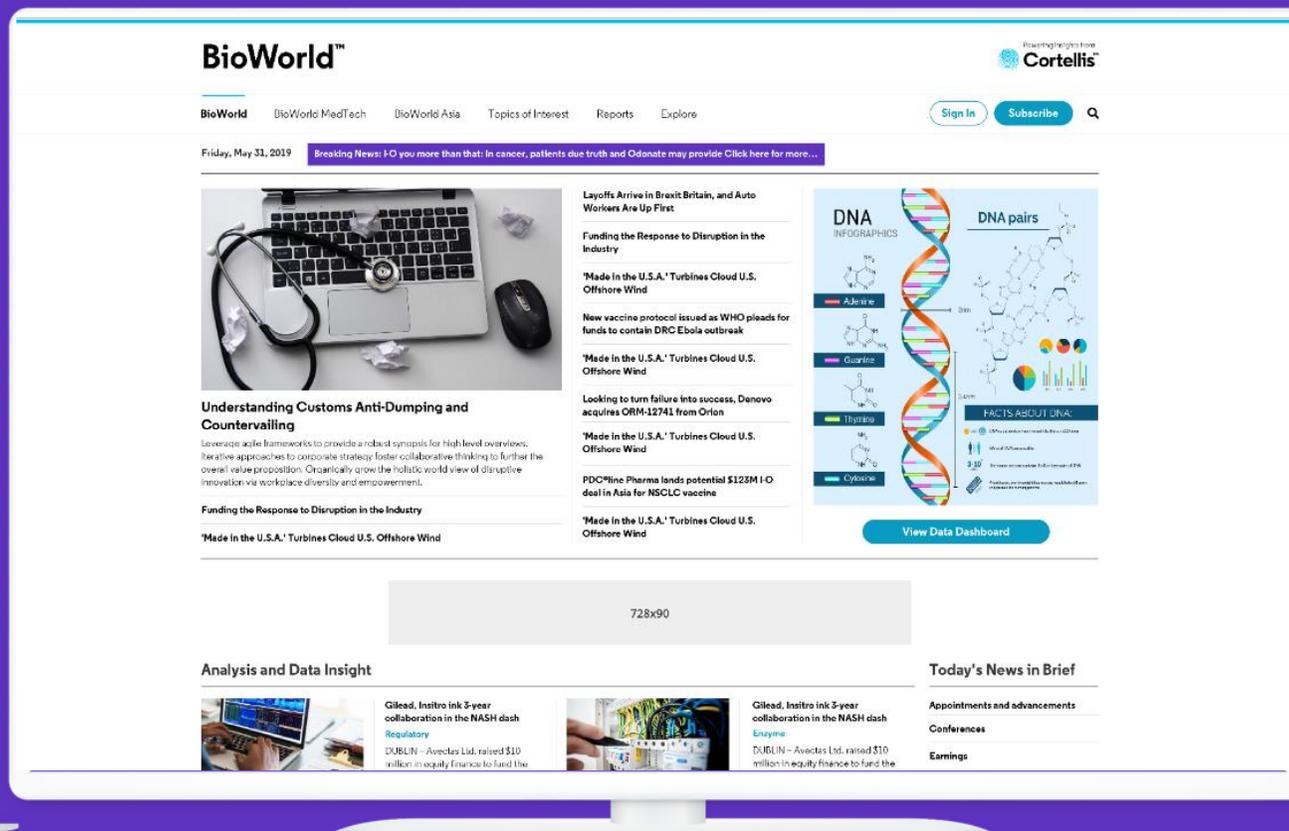

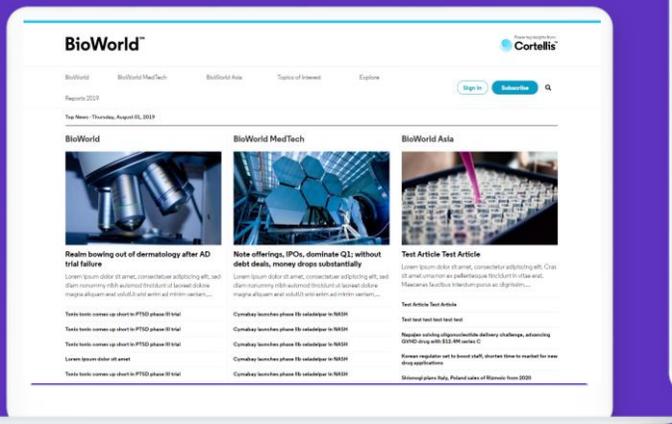

Powerful search

Enhanced search and content-based recommendations makes it easier to search archive.

BioWorld's new platform

Mobile friendly with more visualizations

Wider coverage and faster delivery

More actionable intelligence and insightful analysis for your users

News, archived articles and deep insights consolidated into one BioWorld subscription.

Same-day delivery of news editions.

Faster delivery of industry analysis - BioWorld Insights added to daily feed.

More modern, user-friendly platform

Easy-to-use platform, optimized for multiple devices.

News feed directs you to read articles online, instead of static PDF files.

Dynamic, interactive infographics covering industry insights.

More powerful search

Find the content you need quickly

New taxonomy will help you find the content you need from over 25 years of archives.

Content-based recommendations: alongside every article, you'll see 3-4 recommended articles based on the topic.

New search **cross-references pharma and med tech news.**

BioWorld MedTech on bioworld.com

Consolidating BioWorld offerings on one platform

BioWorld MedTech will also be hosted on bioworld.com, along with the enhanced BioWorld daily news service and BioWorld Asia. Note: BioWorld MedTech and BioWorld Asia are subject to subscription.

BioWorld Science will not be available on the new platform at this stage.

Accessing the enhanced BioWorld

Guidance for your users

- Launches at the **end of 2019**.
- If you subscribe to **BioWorld MedTech** it will also be available on bioworld.com.
- To access BioWorld's breaking news and key perspectives you'll need to **log in to bioworld.com with your email and password**.
- **Existing bioworld.com users** will be prompted to set up a new password on their first visit to the new, enhanced platform.
- **New users:** to register new users under an existing company license, please contact your local account manager.
- **A message will be sent to your users** nearer the launch date with clear guidance about accessing the new platform.
